

# Xavier University Nursing Resources

An important part of your nursing education at Xavier will be using the different learning materials in the ATI Nursing Education platform to deepen your understanding of our core curriculum. You pay for these ATI resources as part of your tuition and fees, so we want to encourage every student to maximize their investment by using them as a regular part of your preparation for class, the skills lab, and clinical experiences.

You will have access to tutorials, ebooks, assessments, simulations, and more – even an online test prep service that will help you prepare for your licensing exam (NCLEX®). Below you will find a complete list of all the learning tools that are available to you. Your instructors will have more information on the right time to use them – but use them! They will help you.

ATI has online videos that easily explain how their tools work. You can find these on the Help tab after you login to the system (more information on how to login will follow). Please watch the Getting Started With ATI videos.

Everyone at Xavier is committed to your success, and we're glad you're here. You're on your way to joining a proud and honorable profession!

## LEARN

### Achieve

Online tutorial system to assist new nursing students with mastering test-taking skills, classroom skills and preparing for the clinical experience. Also addresses the ELL student.

### Dosage Calculations and Safe Medication Administration 2.0

Teach students medical math and assess their mastery in an easy-to-understand online format offering three different methodologies.

### Nurse Logic 2.0

Teaches students to "think like a nurse." It gives a formal introduction to critical thinking methods, the nursing process, priority setting frameworks, and test-taking strategy.

### Nurse's Touch™

This tool teaches leadership, professionalism, and communication skills to prepare students to excel during clinical rotations and in every provider environment.

### Pharmacology Made Easy

Helps students master one of the most difficult subjects in nursing school. Includes anatomy and physiology reviews and case studies, with drill questions included for each area.

### Sigma Theta Tau Nurse Manager Certificate

Facilitates the development of nursing management competencies crucial to functioning in a fast-paced and ever-changing health care environment.

### Skills Modules

Teaches 30 critical nursing skills in an evidence-based environment. Skills Modules saves student and faculty time by making sure each student is prepared for skills lab prior to entry.

## LEARN

### Active Stack

Online pharmacology flashcards organized by body system.

## TEST

### Anatomy and Physiology Assessments

Measure content mastery of this critical subject

### Content Mastery Series

Nine integrated standardized assessments based on the NCLEX-RN® test plan. Robust reporting capabilities across six outcome categories. Students receive direct feedback on remediating their content gaps.

### Critical Thinking Assessments

Proctored assessments to compare baseline and end of program critical thinking capabilities.

### Comprehensive Predictor

End-of-program exam that offer each student their individual probability of passing the NCLEX-RN on the first attempt.

### Dosage Calculation and Safe Medication Administration Assessments

Measures and assesses students' drug calculation competency with six specific assessments for clinical specialties.

### Nurse's Touch™

Practice and proctored assessments that allow students to apply knowledge and gauge areas of strength and weakness for targeted remediation at the end of each content module.

### Self-Assessment Inventory

A tool to assist the new nursing student in identifying their own learning styles and addresses the aspects of nursing such as, time management, prioritization, coping and stress.

## NCLEX PREP

### Capstone Comprehensive Content Review

Educator-guided, personalized prep program for the ATI Comprehensive Predictor.

### Comprehensive or Customized Live Review

Onsite NCLEX® review class lead by masters-prepared nurse educator with at least five years teaching experience. Curriculum can be tailored to specific needs or a comprehensive review.

### Virtual-ATI®

Personalized, assessment-driven NCLEX review in an online classroom supervised by a personal coach. Students are evaluated by their coach who is responsible for “green-lighting” a student for the NCLEX.

## IMPROVE

### Focused Review

Media-rich online study guide based on each student’s individual results on each assessment, and linked to review modules.

## LEARN

### Learning Strategies

Research-based book designed to help students prepare for the college classroom and improve their academic performance in college.

## LEARN

### Learning System

Practice assessments perfect for formative quizzing. Covers content areas aligned to Content Mastery Series.

## PREDICT

### Pulse

Analytics engine that predicts students’ probability of passing NCLEX as early as their first semester in the nursing program, and measures their level of engagement with ATI learning resources.

## APPLY

### Real Life™ Clinical Reasoning Scenarios

Screen-based simulations that help students develop their Critical Thinking/Clinical Judgment.

### Nurse’s Touch™

Students apply leadership concepts and decisionmaking abilities in client communication and charge nurse-related scenarios.

## LEARN

### Review Modules

Part of Content Mastery Series exams, these are online and printed reference manuals based on the NCLEX blueprint. They contain the “need-to-know” for the NCLEX.

## APPLY

### Video Case Studies

Students watch a scenario and then record their response or reaction, then upload to share with their fellow students for peer feedback, before accessing the expert response.

### Nurse’s Touch™

Students view videos of client situations and answer questions that require the use of clinical reasoning skills and nursing knowledge.
